School Students Mark Analysis

About Dataset:

This dataset captures a comprehensive snapshot of an educational institution's ecosystem, encompassing students, teachers, subjects, and academic performance.

Tables:

Students
Includes student ID, name, date of birth, gender, and address.
Provides a detailed profile of each student within the institution.
Teachers
Encompasses teacher ID, names, contact details, and associated subjects.
Establishes the connection between teachers and the subjects they instruct.
Subjects
Consists of subject ID and subject names.
Simplifies the representation of academic disciplines.
Marks
Records academic performance, including marks obtained, exam dates, and associated student, teacher, and subject IDs.
Facilitates a comprehensive analysis of student achievements across subjects.

Acknowledgement:

I would like to express my gratitude to the original owners of this dataset, as it is not owned by me. The dataset used in this data analysis project is attributed to its rightful owners. All credit and recognition go to them for providing such valuable data.
